EXHIBITOR DIRECTORY
A paddy farmer in Tamilnadu, a potato farmer in rural Idaho, a pineapple farmer in Mexico all have one thing in common - they depend on their agricultural equipment for better yields.

To these hardworking sons of the soil, their tractors and harvesters are more than just farm equipment - they are trusted friends, key to their prosperity, expectations and hopes.

Pride of India.
Friend to Farmers Worldwide.

A promise that we at TAFE have upheld for over 50 years, to scores of farmers in India and around the world.

EQUAL OPPORTUNITY to farmers is a reality

Roshanlal Gurjar,
Kuchawas, Jamwa Ramgarh, Jaipur

16,000 Farmers now connected to our platform
100,000 Farmers that we pledge to connect by 2018

“By selling mustard on the Exchange platform we were able to fetch higher prices than those prevailing in the mandi.”

For the first time in Indian commodity markets

At NCDEX, we connect farmers with markets and empower them with choices:

- When and where to sell the produce.
- To seek fair prices.
- To live a rewarding life.

Market access enables farmers with:
Freedom of choice.
Equality of opportunity.

Farmer Producer Companies that have participated on NCDEX

- Ram Rahim Pragati, Bagli, Madhya Pradesh
- Aranyak Agri, Purnia, Bihar
- Jeevika Mahila Agri, Khagaria, Bihar
- Mahila Samridhi, Kota, Rajasthan
- Jamwa Ramgarh, Jaipur, Rajasthan
- Sausar, Chhindwara, Madhya Pradesh
- Katihar, Bihar

Their benefit from hedging 14-20% higher farm gate prices

With two of every three people in Rajasthan are connected with the farm sector, it would be appropriate to say that journey to happiness of our people starts in our farms. Bringing in prosperity and energy into this sector is a priority for our government.

We had envisioned Global Rajasthan Agritech Meet (GRAM) - 2016 as a platform to expose our farmers to the latest technologies and global best-practices.

I am glad to see that GRAM has shaped up into the biggest ever agri-sector event and exhibition. Tens of thousands of farmers from across the state attending this exhibition will benefit from this exposure and share their knowledge with millions of their community in the villages. I see this leading to a ripple effect bringing in a historic transformation in the farms and villages of Rajasthan.

(Vasundhara Raje)
हमें गर्व है कि प्रदेश की माननीय मुख्यमंत्री महादेव के द्वारा किसानों की आय को दोपुर करने और उन्हें समृद्धिवाली बनाने के लिए राजस्थान ग्लोबल एजीटी मीट 'ग्लाम' की निकलना की गई। इस परीक्षामत पर साक्षर करते हुए प्रदेश में फसली वर्ष 9 से 11 नवम्बर, 2016 तक जयपुर के सीलापुर में ग्लोबल राजस्थान एजीटी मीट का आयोजन किया जा रहा है।

प्रदेश का 61 हिस्से भू माता राष्ट्रीय और अंदर सभी सार्वजनिक होने के बावजूद सरकार, गार्ड, मेड, सरकार, जीवन, आयुक्त, इंस्ट्रेक्ट, मैहिद, जैसे अनेक फसलों के उत्पाद में हम देश में असर नहीं हैं। भारत सरकार द्वारा गैंडू के उत्पादन और उत्पादकता के लिए रायध की कुल कमांड पुरस्कार प्रदान किया गया। हाल ही में नीति आयोग द्वारा की गई रेखा में भी राजस्थान को कुपक सुधार के लिए देश में भी सरासर स्थान मिला है। कृषि में प्रदेश में नवाचार के क्षेत्र में जैवजैव, खजूर के साथ-साथ ड्राइंग फुट, कर्निया, उद्योगी की प्रशस्त सेवा से उत्कृष्टता केन्द्रों की स्थापना की गई है।

'ग्लाम' के माध्यम से किसानों के सरासरकार और स्वर्णविकास खिताब का प्रयास किया जा रहा है। इस आयोजन में किसानों को कुल किस्मी कुलक, कृषि प्रसंस्रक एवं मूल संबंध, वैज्ञानिक भविष्यवाणी, ई-विपणन, उत्पाद का प्रबंधन, सरकार तथा कृषि, जैविक खेती, बागवानी, भेंटी और उन्नत पत्ता प्रकाशन तकनीक के साथ कराया जाएगा।

राज्य में कृषि आधारित व्यवसाय की प्रति संभावनाओं के मदद देने वाला-विदेश की नामी कंपनियों की आधारी होगी, जिससे कृषि क्षेत्र में निवेश को वाढ़ा और संकट के अधिकारों में जुड़ी होगी। यह पूरा विषय है कि यह विशाल आयोजन कृषकों, सोशल कर्मी, कृषि उद्यमियों, छात्रों, विकासकर्मी और अन्य हितों के लिए उपयोगी साबित होगा।

'ग्लाम' के सकल आयोजन के लिए मेरी ओर से हार्दिक हुमान्वित हूँ।

MESSAGE

Greetings and welcome to Global Rajasthan Agri-Tech Meet (GRAM) 2016. GRAM has been setup to facilitate a platform for encouraging global, market driven and profitable ventures. By bringing together the complete farming ecosystem from farmers, academicians, technologists, agribusiness companies and policy makers, GRAM aims to accelerate the development of sustainable agricultural and allied activities through innovative methods and international best practices.

Rajasthan is surging ahead to become one of the most socially and economically progressive states in the country. The reforms and initiatives that have been implemented in the state and those that have been planned for the future, touch upon various aspects such as sustainability & innovation in agriculture, technology enablement, effective agri-marketing, farm mechanization, efficient irrigation, protected cultivation, etc. The state has been consistently performing well in agriculture and related activities and this reflects in the recent "Agricultural Marketing and Farmer Friendly Reforms Index" released by NITI Aayog where Rajasthan has been ranked 3rd in India. With a surplus in food grains, milk and pulses, the state is committed to transforming its agricultural landscape by actively promoting usage of innovative best practices in agriculture and adopting sustainable agricultural models.

I invite you to utilize this momentous occasion by taking stock of the plethora of opportunities available in the state. The ecosystem is ripe for investments that would help improve farmer livelihoods and further the contribution of agri and allied sectors to the economy of the state.

(Signed)

(Neelkamal Darbari)
Principal Secretary
Agriculture & Horticulture

MESSAGE

It gives me immense pleasure to know that Global Agritech Meet Rajasthan (GRAM) will be held from 9th to 11th November, 2016 at Jaipur Exhibition & Convention Centre (JECC), Sitapura, Jaipur in which commendable achievements in the Animal Husbandry Sector will also be showcased.

Animal husbandry and livestock activities contribute approximately 10% to the State GDP. Animal Husbandry is not only a subsidiary occupation to agriculture but also a major economic activity, especially in the arid and semi-arid regions of the Rajasthan. The State of Rajasthan famous for its well-defined prized livestock breeds and some of these best milk and draught breeds have an inherent adaptability to survive agro-climatic diversities with superior productive performance. These indigenous breeds possess valuable traits like adaptability to climatic diversities, resistance to number of pathogens and better production ability despite comparatively poor quality of feed and fodder.

The rich animal biodiversity in the State imposes special responsibility on us for their protection, sustainable use and quality upgradation. Livestock development has attained the status of agro based industry generating economic growth, gainful employment and livelihood to weaker sections in the State besides raising the level of nutritional standard.

I hope that the event will bring together all stakeholders - farmers, academicians, technologists, agribusiness companies and policy makers - to accelerate development of sustainable agricultural and allied activities through adoption of modern innovative practices which are need of the day.

(Kunji Lal Meena)
Rajasthan agriculture sector is progressing through adoption of innovative methods and best agriculture practices. Apart from stepping up efforts to boast agriculture production in the state, the government of Rajasthan has also embarked upon a series of reform measures to encourage investment in agriculture and agri-business. It is pleasure for FICCI to collaborate with the Government of Rajasthan in organizing GRAM 2016.

I am glad to know that GRAM is aimed at showcasing the finest of global technology and advancements in the field of agriculture and allied sector. Technological innovations, in near future, is critical to the enhancement of agricultural productivity and the long-term challenge of sustainable development. I am sure this event will bring in all the significant stakeholders – industry leaders, Agriculture institutes, academia, policy makers, entrepreneurs and above all, farmers at a single platform to learn about each other's views and forge a roadmap towards doubling farmer's income.

I am confident GRAM 2016 would definitely bring more technology at one platform, coordinate an exchange of ideas and aid development of a robust agriculture sector in Rajasthan.

My best wishes to all the participants for a grand success of this event

Profile

The company has developed an innovative Organic Agri-Inputs which are made of Ayurvedic Herbs. The company deals in range of Ayurvedic Pest control products for various pest and diseases which can be used across all crops. The company believes in Zero chemical products which are in sync with Human, Animal, Soil, ground Water and Environments.

The products consists of:
1. Ayurvedic Fungal Disease Controller
2. Ayurvedic Viral Disease Controller
3. Ayurvedic Acaricide
4. Ayurvedic Larvicide
5. Ayurvedic Whitefly Special
6. Ayurvedic Sucking Pest Controller
7. Ayurvedic Termite Controller
8. Multipurpose Plant Tonic
9. Ayurvedic Soil Conditioner
10. Other Pest Special Products

All the products are highly suitable for Organic and nature friendly farming. Besides this the company also plans to enter in mAgri services and is planning to launch an agri-advisory app soon. We welcome any interested company to join us in mutually creating an extensive Organic farming app.

BVG India Ltd is our flagship company and provides the entire bouquet of facility management services under the principle of 'Your Non-Core Work Is Our Core Work'. We provide the following services, with track record of quality, and speed in services.

Total Facility Management:

Civil engineering projects, including plant relocation. We helped relocate manufacturing plants of Fiat from Kurla, Mumbai to Ranjangaon and the Nano factory of Tata Motors from Singur to Sanand.

Power substation and distribution projects: We have implemented a large rural power distribution project for Maharashtra government.

Municipal waste management projects: We serve many municipal corporations in India.

Wastewater management and treatment services. We partner with innovators world over to popularize innovations that help maintain and improve health of humans, plants and animals.

We are partners with National Innovation Foundation, an autonomous body of the Department of Science and Technology, Government of India, to popularize Indian innovations. Our first product Yuvaan Tea is launched in the market, in anti-inflammatory, anti-diabetic, anti-oxidant, anti-hypertension, anti-aging, and anti-obesity variants.

We are partners with DSM, the $20 billion world's largest nutraceutical company for fortification of milk, wheat, and other food products with vitamins.

We have partnered with Eurial, France to commercialize goat milk in India and emerging economies.

**Profile:**
Indian Society of Agribusiness Professionals (ISAP) is a non-government, non-profit organisation, incorporated in 2001 with the aim to work for livelihood enhancement of rural communities. In its formative years, ISAP's focus was on farmers' technical training through on-field and ICT-based interventions for agriculture development. Based on extensive learning on the field, over the years, its work has evolved to include integrated farming, farmer aggregation and market linkages into a comprehensive sustainable rural livelihoods approach.

Indian Agriculture Professionals (IAP) is a part of the ISAP network. IAP is an online platform aimed at enhancing information exchange amongst the Indian Agriculture professionals (https://www.facebook.com/groups/agribiz4u/). IAP has crossed 87,000 professional members on the online group. The ISAP page at https://www.facebook.com/isapindia.org has more than 98,000 likes on the page & more than 500,000 likes across posts on the page & the group since inception.

Profile
JK Trust is one of the largest NGOs in the country, working towards “Cattle and Buffalo Breed Improvement Programme". Today we operate through more than 4457 AI centres in 173 districts of 10 states covering 45,000 villages having a reach of 4.5 million farmers. Large numbers of our centres cover large tracts of tribal & backward areas, while some centres are operated only by lady 'Gopals'. This initiative has played a pivotal role in enhancing the quality of the cattle bloodline by using scientific techniques such as Artificial Insemination (AI) and other veterinary care services. This has helped us in addressing the core issues of our agrarian society by alleviating poverty, reducing malnutrition & creating employment in rural India.

In 2016, we have started our new initiative namely JK BovaGenix, with the aim of rapid multiplication and propagation of superior animal genetics. At our state of the art ET-IVF centres namely 'Dr. Vijaypat Singhania Centre of Excellence for Assisted Reproductive Technologies in Livestock' located at Pune in Maharashtra and Gopalnagar in Chhattisgarh, we use advanced Assisted Reproductive Technologies as a tool to achieve the mission of propagating superior male and female dairy animals. We also have a mobile ET-IVF Van namely 'Mobile Cattle Embryo Transfer and In-Vitro Fertilization Lab' which takes these Assisted Reproductive Technologies to the door steps of beneficiaries.

Profile

Premier Solar came into existence in the year 1995 as one of the First Movers in the Indian Solar Sector. With humble beginnings of capacities less than 3 MW per year, Premier Solar was principally supplying modules and solar products like solar lanterns and streetlights to various clients in India. Since the solar sector in India was yet open, Premier Solar focused on supply of these products to several foreign countries and gradually built up a very large dealer network across several nations of the world. Premier Solar has also installed more than 5000 Solar Pumps across India.

Shakti Pumps India's largest manufacturer of 100% stainless steel pumps & energy efficient motors began its journey in 1982 in Pithampur (M.P.). The brand has now a solid presence in over 125 countries. India's largest manufacturer & exporter of Solar Pumps for rural and agricultural applications reduce the dependency on traditional energy sources. The ingenious R & D wing has brought out eco-friendly innovations. Shakti has installed more than 20000 Solar Pumps across India (highest so far) and has also been awarded for Solar Pumps 1A Rating of Ministry of renewable energy (MNRE). The Indian government aims to make India the renewable energy capital of the world and Shakti Pumps is sure to contribute substantially towards it through such eco-friendly products. Besides being a nationally favourite pump brand, Shakti Pumps are in great demand in international market. Our commitment to excellence is also recognized through various certifications by UL, CE, BIS, ISI, ISO (ISO 9001:2008, ISO 14001:2004 & BS OHSAS 18001:2007), etc. It is the only Indian pump company to win 5 star ratings for more than 260 pumps from the Bureau of Energy Efficiency.

Profile
Founded in 2006, StarAgri is one of Asia’s leading post harvest solutions company with global ambitions. With an integrated agri-solutions strategy across the post harvest needs of both producers and buyers, we leverage tie-ups with some of India’s leading financial institutions to hold commodities worth INR 75 billion across over 200 collateral management locations. Our unrivalled farmer reach, in-depth understanding of the agribusiness and appreciation of the challenges facing the country’s rural sector have enabled us to grow into one of India’s most preferred agribusiness service provider.

With a pan-India network of 800+ warehouses across 16 states and over 1.5 million tonnes of warehousing capacity, StarAgri caters to customers ranging from banks to international bulk commodity buyers, food, health & FMCG companies and commodity exchanges. We deliver integrated post harvest solutions including warehousing, collateral financing, procurement and value-added services to enhance efficiency across the entire food supply chain.

We are largest manufacturers of Humates in India. Humates are now recognized as the single most productive input in Agriculture. Our philosophy is based around sustainable agriculture with an emphasis on optimizing the physical, chemical and biological properties of soils. Humicas is a concentrated water soluble liquid bio stimulant. Rich in organic carbon, It greatly improves the biological action and physio chemical properties of the soil. Application of Humicas results in higher yields, massive root system and increased tolerance to drought. Our products are certified organic.

Start today for a fertile tomorrow!

First of all we would like to acknowledge you with the brief introduction of 'The Business Success Advisor Book' Directory and News Paper :- 'The Business Success Advisor Book' found its beginning in 1995 with a national (telephone cum address) directory of the traders and manufacturers of Agriculture trade. The Business Success Advisor Book has today grown to become one of the India's largest media to promote Agriculture products. The latest edition of directory 2015 covers Districts, Cities, Towns and Villages from all over India. It's a complete directory of Manufacturers, Wholesalers, Dealers, Subdealers and Retailers in around 1000 pages. In addition to the directory, The Business Success group also started the publication of a monthly News Paper in 2001. It soon became a successful national News Paper in the same category of trade. The News Paper is been circulated to the Manufacturers, Wholesalers, Dealers, Subdealers and Retailers of Agriculture trade and as well as to the farmers in certain areas.

We produce this revolutionary film, that is arguably the toughest plastic covering sheet available throughout in the world.

Silpaulin continues to be exported to countries across the globe: from Europe to the Middle East, from the Americas to Pacific Islands & Africa.

Its unmatched strength apart, Silpaulin also offers the assurance of 100% waterproofing. Its heat sealed joints further guarantee that there is no leakage whatsoever.

It is light in weight, fully recyclable & U.V Stabilised.

XF Division has taken Customization to exciting new levels.

Silpaulin has won the Prestigious "WORLDSTAR" award for product excellence. The film further conforms to IS 14611-2016, which is equivalent to comparable ASTM Standards.

From FLOURISHING FIELDS to NOURISHING MEALS

Celebrating 40 years of commitment to Indian Agriculture.
Progressive farmers, innovative technology, abundant fibre, wholesome nutrition and strong partnerships. Over the last 40 years, our commitment to these outcomes has only become stronger. Our increasing presence in hybrid bt-cotton seeds, corn seeds, fruit and vegetable seeds, crop protection, and agronomy improvement solutions has helped us connect with over 10 million farmers regularly. And while being a global player in the field of agriculture, we have been committed to ensure that the nation and its farmers progress continually. A commitment that remains unshaken, even today.
- 50 to 60% saving in water.
- Net growth in production up to 100%.
- Best quality and best work efficiency.
- Complete Sprinkler and Drip Irrigation System at low expense according to the need and capacity of the crop.
- Jain Drip - The only mean to irrigate more area with available electricity in less time.
- Millions of happy farmer customers of Jain Drip and Sprinkler system in all India.
- Only Company of the world producing all components and systems in micro irrigation field.
- Jain Drip working in more than 55 lakh acre area in India.
- Devoted to agriculture work, farmers' service and benefit since 45 years.

**Why Jain Tissue Culture is different from others:**
- Plant production after 100% virus indexing.
- Now distributed in po-tray instead of plastic bag.
- Book your order before three months by depositing full amount and get number of plants you want.

Jain Plastic Park, P.O. Box 72, Jalgaon - 425001.

किसे टिल्ल की तरह, पर काम करे ट्रैक्टर की तरह।

पेशा है मेगा टी यही काफी है!

मेगा टी ट्रैक्टर और टिल्ल की मुख्य खुबिया को साथ लाने वाली एक अत्याधुनिक मशीन है।

मेगा टी आपके लिए विशेष रूप से उपयोगी हो सकता है:
- टिल्ल की परिवर्तनशीलता के साथ ट्रैक्टर का प्रदर्शन
- ट्रैक्टर जैसी सुशासन और टिल्ल जैसे उपकरण इलेक्ट्रॉनिक के साथ क्रैंस और चूहा
- फिंगर ट्रैक्टर या टिल्ल में अब तक न देखे गये अनेकों एंटिकेट
- ईंधन की कम खपत के साथ उत्पाद क्षेत्र में काम करे।

15 देवी, मेगा T
10+ का एकांत
मेगा S, बैलोर, मेगा T, देवी वापसी, आधुनिक मशीन

कर्णल कृषि is a premier monthly agricultural magazine in Hindi dedicated to Indian farmers of the 21st century. It endeavors to cater to their basic needs, provide workable and practical solutions to their day to day problems of agriculture, instill confidence in them in making farming a reliable means of livelihood. It provides a new perspective to agriculture integrating and encompassing various facets of farming and allied activities like crop production, farm mechanization, horticulture, floriculture, growing medicinal plants, warehousing / cold storage, food processing and agribusiness.

One of the primary objectives is to provide a common platform to all stakeholders viz. the government, agricultural universities, research institutes, input suppliers, traders and farmers to facilitate effective transfer of technology.

In 2016 कर्णल कृषि will be launched in 4 different regional languages namely Punjabi, Gujarati, Marathi and Kannad. After releasing of these languages कर्णल कृषि Magazine will become popular in every part of India.
