		17.2	Supporting documents shall be submitted in the following manner:
		(a)	The Bidder shall prepare one set of support documents for technical proposals and submit online the same in Part 'I & II' as " TECHNICAL PROPOSAL ",
		(b)	The bidder shall also prepare one set of support documents for financial proposals and submit online the same in Part 'III' as " FINANCIAL PROPOSAL "
		(c)	The Bid proposals and documents should be uploaded in order as envisaged.
		17.3	The Bid shall contain no alterations, omissions or additions, except in accordance with instructions issued by the RHDS, Jaipur.

		17.4	The Bidder shall furnish information requested in the Price Proposal.
18.	Submission of Bids	18.1	The EOI/ bid proposals will be submitted online at the prescribed site. The interested firm should be well acquainted with e-procurement process & DSC.
19.	Deadline for Submission of Bids	19.1	Online Submission dates: During normal office hours from 16.02.2018 (5.00 pm) to 26.02.2018 (till 5.00 pm) in favour of the Member Secretary and Mission Director, RHDS, Directorate of Horticulture, Pant Krishi Bhawan, JAIPUR.
		19.2	The RHDS, JAIPUR may, at its discretion, extend the deadline for submission of bids by issuing an addendum, in which case all rights and obligations of the RHDS, JAIPUR and the bids previously subject to the original deadline shall thereafter be subject to the deadline as extended.
20.	Late Bids	20.1	Physical Submission received by the RHDS, JAIPUR after the deadline for submission prescribed in Clause 19 shall not be accepted online.
21.	Withdrawal, Substitution, and Modification of Bids	21.1	The bidders should well acquaint with the process of e-tendering on https://eproc.rajasthan.gov.in . The bidders may get training/ assistance for the same from e-Procurement Help Desk, Phone No. 0141-4022688 e-mail : eproc@rajasthan.gov.in
22.	Bid Opening	22.1	The Bid opening shall take place online, on the date and time specified in the Bid Document.
		22.2	The time and date of the Bid opening of the price proposals shall be as hereinafter notified.
		22.3	First, Part I technical bid shall be opened online.
		22.4	The bid with required fees and security will be accepted.
		22.5	Next, the eligible proposals will be processed for Part II technical bid opening.
		22.6	All the technical proposals will be evaluated by RHDS and deficit will be rejected at this stage.
		22.7	Next, the eligible proposals will be processed for Part III technical bid opening.
		22.8	Part 'III' containing the Financial proposals shall be opened only of those bidders who have been found to satisfactorily furnish technical proposals Part I & II. At the end of the evaluation of the Technical Proposals, the RHDS, Jaipur will decide to open the bids which have substantially responsive Technical Proposals and who have been determined as being qualified for award for opening of the Price Proposals. The time and date of the Bid opening of the price proposals is being notified in this Document. Any change in the already announced programme for opening of Financial Bids shall be notified by the RHDS, JAIPUR online. The change can be only for a later date.
		22.9	The RHDS, Jaipur shall conduct the opening of Price Proposals of all Bidders who submitted substantially responsive Technical Proposals, date and time specified by the RHDS, Jaipur.
23.	Confidentiality	23.1	Information relating to the examination, evaluation and comparison of Bids, and recommendation of contract award, shall not be disclosed to Bidders or any other persons not officially concerned with such process until information on task award is communicated to all Bidders.

		23.2	Any attempt by a Bidder to influence the RHDS, Jaipur in the examination, evaluation, and comparison of the Bids or Contract award decisions may result in the rejection of his Bid.
24.	Clarification of Bids	24.1	To assist in the examination, evaluation, comparison and post-qualification of the Bids, the RHDS, Jaipur may, at its discretion, ask any Bidder for a clarification of its Bid.
		24.2	Subject to Sub Clause 24.1, no bidder shall contact the RHDS, Jaipur on any matter relating to its bid from the time of the bid opening to the time the Contract is awarded. If the bidder wishes to bring additional information to the notice of the RHDS, Jaipur, it should do so in writing. It will be at the discretion of RHDS, Jaipur to entertain or not to entertain such additional information voluntarily furnished by the bidder.
25.	Preliminary Examination of Bids & Responsiveness of Technical Proposal	25.1	Prior to the detailed evaluation of Technical bids, the RHDS, Jaipur will determine whether each bid (i) meets the eligibility criteria; (ii) has been properly submitted with required documents; (iii) is accompanied by the required securities; (iv) is substantially responsive to the requirements of the bidding documents For the purpose of eligibility, Turn Over will be taken care of.
		25.2	The RHDS, JAIPUR's determination of the responsiveness of a Technical Proposal shall be based on the contents of the Technical Proposal itself.
		25.3	A substantially responsive Technical proposal is one, which conforms to all the terms, conditions and specifications of the bidding documents.
		25.4	If a Technical Proposal is not substantially responsive it will be rejected by the RHDS, JAIPUR. Conditional bids would be deemed to be not substantially responsive, and shall be rejected by the RHDS. RHDS reserves the right to consider even a single substantially responsive bid after the approval of its Executive Committee.
26.	Non-conformities, Errors, and Omissions	26.1	Provided that if a Technical Proposal is substantially responsive, the RHDS, JAIPUR may waive any non-conformity or omission in the Bid that does not constitute a material deviation.
		26.2	Provided that a Technical Proposal is substantially responsive, the RHDS, JAIPUR may request that the Bidder submits the necessary information or documentation, within a reasonable period of time, to rectify non-material, non-conformities or omissions in the Technical Proposal related to documentation requirements. Such omission shall not be related to any aspect of the Price Proposal of the Bid. Failure of the Bidder to comply with the request may result in the rejection of its Bid.
		26.3	Provided that the Technical Proposal is substantially responsive, the RHDS, JAIPUR will correct arithmetical errors during evaluation of Price Proposals on the following basis:
		(a)	When there is a difference between the rates in figures and words, lower of the two rates shall be taken as correct rate.
		(b)	When the rate quoted by the bidder in figures and words tallies, but the amount is not worked out correctly, the rate quoted by the bidder shall be taken as correct and not the amount as worked out.

		26.4	The amount stated in the Form of Bid would be adjusted by the RHDS, JAIPUR in accordance with the above procedure for the correction of errors and shall be considered as binding upon the bidder. If the bidder does not accept the corrected amount of bid, his bid shall be rejected, and the bid security shall be forfeited. <u>A party not indicating its Turn Over and Financial data for at least three preceding years shall be disqualified.</u>
27.	Examination of Terms and Conditions;	27.1	The RHDS, JAIPUR shall examine the Bids to confirm that the Bidder without any material deviation or reservation has accepted all terms and conditions.
		27.2	The RHDS, JAIPUR shall evaluate the technical aspects of the Bid submitted in accordance with this Bid Document to confirm that all requirements specified in Scope of Work of the Bidding Document have been met without any material deviation or reservation.
		27.3	If, after the examination of the terms and conditions and the technical evaluation, the RHDS, JAIPUR determines that the Technical Proposal is not substantially responsive in accordance with Clause 25, it shall reject the Bid.
28.	Technical Evaluation & Comparison of Price Proposals	28.1	The RHDS, JAIPUR will evaluate and compare the Price Proposal of each bid determined to be substantially Technically responsive in accordance with Clause 25.
		(a)	Like the opening of Technical Proposal, following the opening of Price Proposals, the RHDS, JAIPUR shall examine the Price Proposals to confirm that all documents and financial documentation requested in Sub- Clause 11.4 have been provided, and to determine the completeness of each document submitted.
		(b)	In evaluating the bids, the RHDS, JAIPUR will determine for each bid the Evaluated Bid Price by adjusting the bid price as follows: a) Making any correction for errors pursuant to Clause 26; b) Making an appropriate adjustment for any other acceptable variations, deviations or alternative offers submitted.
		(c)	If required provision of finance notification No. F 1 (8) FD/GF&AR/2011 dated 19.11.2015 and RTPP act and rule prevail
		28.2	The RHDS, JAIPUR reserves the right to accept or reject any variation/ deviation. Any variations/ deviations and other factors which are in excess of the requirements of the bidding documents or otherwise result in the accrual of unsolicited benefits to the RHDS, JAIPUR shall not be taken into account in the bid evaluation.
		28.3	The RHDS, JAIPUR shall compare the evaluated Bid prices of all substantially responsive bids to determine the lowest-evaluated Bid.
29.	RHDS, JAIPUR's Right to Accept Any Bid, and to Reject Any or All Bids	29.1	Notwithstanding Clause 30, the RHDS, JAIPUR reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids, at any time prior to award of Contract, without thereby incurring any liability to the affected bidder or bidders or any obligation to inform the affected bidder or bidders of the grounds for the RHDS, JAIPUR's action.

30.	Award Criteria	30.1	<p>Empanelment and award criteria: Presently, RHDS is having sanction for 7500 Nos. SPV Pumps installations in Rajasthan. For this RHDS will award 90% work to 10 Nos. General (main) category bidders and rest 10% to 10 Nos. Local small and medium entrepreneurs as under :</p> <ol style="list-style-type: none"> 1. The RHDS may inspect the facilities before award the task/ empanelment. 2. RHDS will undergo technical evaluation process and price bid of all technically qualified bidders will be open and bidders will be arranged in ascending order in reference to 5 HP DC static submersible pump (20 mtr head) and 5 HP AC static submersible pump (20 mtr head) separately as L1, L2, L3 Ln. RHDS will consider only 5 bidders from AC category and 5 bidders from DC category as per their standings as L1, L2, L3.... For final empanelment. In case one or more supplier stands in both AC and DC category, further supplier stands in list as per L1, L2, L3 in AC category then DC category will be considered for empanelment to complete total 10 Numbers bidders in the list. 3. Similar process will be adopted for Local small and medium entrepreneurs. RHDS will consider only 10 minimum rate bidders for AC/DC category out of this list for final empanelment. 4. If L1 prices for base model 5 HP DC static submersible pump (20 mtr head) and 5 HP AC static submersible pump (20 mtr head), other models (3 HP, 5 HP, 7.5 HP & 10 HP) and other components seems to be higher then counter offer may be given by RHDS/ RRECL to justify the prices in interest of farmers.
31.	Notification of Award	31.1	The Bidder whose Bid is found acceptable/ eligible for empanelment shall be notified of the award by the RHDS, prior to the expiry of the bid validity period, through a Letter of Acceptance/ empanelment.
32.	Signing of Agreement	32.1	Within 07 working days following the notification of award along with the Letter of Acceptance, the RHDS, JAIPUR shall send to the successful Bidder/ firm a signed Agreement that incorporates all agreements between the RHDS, JAIPUR and the successful Bidder.
		32.2	<p>Within seven (07) working days of receipt of the Agreement, the Successful Bidder shall sign, date and return the agreement to the RHDS, JAIPUR. Failure of the successful Bidder to sign the Agreement shall constitute sufficient grounds for the annulment of the award and forfeiture of the Bid Security. Along with the agreement, a Performance Security in the form of a Bank Guarantee of Rs 150.00 lac shall be submitted in favour <u>Member Secretary, RHDS, JAIPUR</u> with a validity of 1 year.</p> <p>For new /local entrepreneur under category a Performance Security in the form of a Bank Guarantee of Rs 20.00 lac shall be submitted in favour <u>Member Secretary, RHDS, JAIPUR</u> with a validity of 1 year.</p> <p>The bid security will be returned to unsuccessful bidders.</p> <p>In lieu of bid security, a bid securing declaration shall be taken form Departments' of the State Government and undertaking, Corporations, Autonomous bodies, Registered Societies, Cooperative Societies which are owned or controlled or managed by the state Government and Government Undertakings of the Central Government.</p>

33	Mode of Payment	33.1	Advance payment of farmer share may be done against the bank guarantee valid for 90 days equal to the amount of farmer share to DHDS at time of work order. Otherwise advance payment of farmer share will be made after supply of material on farmer field by DHDS.
		33.2	Empanelled firm/ company will have to also submit BG of 10% of system cost for a period of five year against maintenance security before claiming material payment against the number of solar pump supplied to farmers. Total payment after material supply will be at least 70% of the system cost.(farmer share + subsidy). Note : Subsidy payment will be released by RHDS at Directorate level
		33.3	After completing installation and commissioning of system, the firm shall submit the documents as per EOI document to AD/DD, DHDS. DHDS officer and Field officer of RREC/nominated by RHDS will jointly inspect and Physically verify the system and submit the report /documents along with Photograph to AD/DD, DHDS which finally forward the same to RHDS for final payment as per terms & conditions of the tender/EOI & guidelines. Note : Subsidy payment will be released by RHDS at Directorate level As per the present guidelines subsidy will be permissible only up to 5HP.
34.	Mode of award of targets	34.1	New /local entrepreneur category will be allotted 10 percent of total work. L-1 Prices will be decided by RHDS/RRECL based on L-1 Prices offered by bidders and Market survey report prepared by committee before opening financial bid by keeping in mind rates prevailing in the market and prices decided by tender in other states. Terms and condition of EOI /tender will also be kept in mind while evaluating the rates with the EOI/ tender of other states. Base rate of MNRE may also be taken in to consideration while giving counter offer to suppliers.
		34.2	RHDS will review the progress after three months to access the working of the firms (New /local entrepreneurs allotted 10 percent target). If the progress noted very poor, the allocated target can be curtailed and awarded to other firms. Similarly, if the progress and achievements of local suppliers noted good, their allocation can further be increased on recommendations of reviewing committee after approval from competent level.
35.	Steps to take up the work	35.1	The Empanelled firm will take list of prospective beneficiaries from district level offices of DHDS and motivate the interested beneficiaries in their favour and execute tri-party agreement as per document. The bidder will submit the tri-party agreement to District level office of Horticulture and obtain work order issued by DD/AD, Horticulture of the beneficiary in his favour.
		35.2	The Empanelled firm shall complete the readiness of material for supply and submit their request for Pre-despatch inspection to RHDS/ Rajasthan Renewable Energy Corporation (RREC) along with Test certificates of offered model for supply as per MNRE technical Guidelines and further directions issued time to time. RHDS/ RREC will depute inspector for inspection of material at works of the supplier.

		35.3	RHDS / RREC will issue material acceptance after inspection of material and despatch clearance to the supplier.
		35.4	Then, the Empanelled firm will arrange supply of material in field for further installation and commissioning of systems.
		35.5	<p>The firm will essentially develop a an Operation and Maintenance Manual to register complete details from supply of material to AMC of system for Five years and will be made available to the beneficiary at the time of initial supply of material. All material details such as :</p> <ol style="list-style-type: none"> 1. SPV Modules (Make, PV capacity of each Module, Module Numbers). 2. Structure Type (Manual Tracking/Auto tracking). 3. Pump { Make;, Model, Number}, 4. Pump Motor { Make;, Model, Number} 5. Controller { Make;, Model, Number} and 6. Other Balance of System (BoS) details in brief will be recorded with signature & seal of supplier firm and made available to beneficiary. <p>Further every step should be recorded in this booklet with dates. Sufficient pages for AMC service record for 5 Years should be provided in this booklet.</p> <p>An Operation and Maintenance Manual, in farmer friendly Hindi language, should be provided with the solar PV pumping system. The Manual should have information about solar energy, photovoltaic, modules, DC/AC motor pump set, tracking system, mounting structures, electronics and switches as per the details given above. It should also have clear instructions about mounting of PV module, DO's and DONT's and on regular maintenance and Trouble Shooting of the pumping system. Name and address of the person or Centre to be contacted in case of failure or complaint should also be provided. A warranty card for the modules and the motor pump set should also be provided to the beneficiary.</p>
		35.6	The Empanelled firm shall attend the systems on break down of system and for regular AMC. All AMC visits should be recorded in the booklet of beneficiary with details for faults noted and rectification made with dates.
		35.7	RHDS/RREC officers can visit and inspect the systems for taking performance of systems.

(IV) Scope of work

IV.1 General Project Information:

The information given hereunder and provided elsewhere in this document is given in good faith by the RHDS but the bidder must satisfy himself regarding quantity and quality wise supply of Solar module/ panel, Solar Photovoltaic (SPV) Pump and GI support structure and all aspects commissioning of solar infrastructural facility and its maintenance services for 10 years (It includes 5 years guarantee period and there after the sale services of 5 years at the cost of beneficiaries including guarantee period) and no claim shall be entertained on the plea that the information supplied by the RHDS is erroneous or insufficient. **The supplier firm will provide solar pump testing facility at manufacturing site.**

IV.2 Project Location:

Looking to the bright prospects of Hi-tech Horticulture/ Agriculture in the state, the project will be implemented in all districts of Rajasthan. The lands may belong to the farmers of the concerned districts. Project comprises of two parts as:

IV.3 Package:

1. Supply of solar photovoltaic (SPV) water pumping system.
2. Commissioning of solar pumping infrastructural facility and its maintenance and after sales services for 10 years (It includes 5 years guarantee period). The firm is also required to establish the customer care centre, farmer trainings on service centre and toll free number and upload the data on departmental website.

IV.3.1 Supply of solar photovoltaic (SPV) water pumping system

Technical specification Details:

I. INTRODUCTION

A solar photovoltaic (SPV) water pumping system consists of :

1. PV array :
 - Capacity in the range of **200 Wp to 10 KWp** .
 - Should be mounted on a suitable structure with a provision of tracking the sun
2. Motor Pump Set (Surface or submersible) :
 - D.C. Motor Pump Set (with Brushes or Brush less D.C.) OR
 - A.C. Induction Motor Pump set with a suitable Inverter
3. Electronics :
 - Maximum Power Point Tracker (MPPT)
 - Inverter for A.C. Motors (Appropriate Electronic Controller in case of B.L.D.C.)
 - Controls / Protections.
4. Interconnect Cables and “On-Off” switch.

II. PERFORMANCE SPECIFICATIONS AND REQUIREMENTS (DUTY CYCLE)

Solar PV Water Pumps with PV array capacity in the range of 200 Watt to 5 KWp may be installed on a suitable bore-well, open well, Water Reservoir, Water stream, etc.

Under the “Average Daily Solar Radiation” condition of 7.15 KWh/ sq.m on the surface of PV array (i.e. Coplanar with the PV Modules), the minimum water output from a Solar PV Water Pumping System at different “Total Dynamic Heads” should be as specified below:

For D.C. Motor Pump Set with Brushes or Brush Less D.C.(B.L.D.C.) :

1. 100 liters of water per watt peak of PV array, from a Total Dynamic Head of 10 metres (Suction head, if applicable, minimum of 7 metres) and with the shut off head being at least 12 metres.
2. 50 liters of water per watt peak of PV array, from a Total Dynamic Head of 20 metres (Suction head, if applicable, up to a maximum of 7 metres) and with the shut off head being at least 25 metres.
3. 35 liters of water per watt peak of PV array, from a Total Dynamic Head of 30 metres and the shut off head being at least 45 metres.
4. 21 liters of water per watt peak of PV array, from a Total Dynamic Head of 50 metres and the shut off head being at least 70 metres.
5. 14 liters of water per watt peak of PV array, from a Total Dynamic Head of 70 metres and the shut off head being at least 100 metres.
6. 9.5 liters of water per watt peak of PV array, from a Total Dynamic Head of 100 metres and the shut off head being at least 150 metres.

The actual duration of pumping of water on a particular day and the quantity of water pumped could vary depending on the solar intensity, location, season, etc.

Indicative performance specifications for the Shallow and Deep well SPV Water Pumping Systems are given in the Annexure I.

For A.C. Induction Motor Pump Set with a suitable Inverter :

1. 90 liters of water per watt peak of PV array, from a Total Dynamic Head of 10 metres (Suction head, if applicable, minimum of 7 metres) and with the shut off head being at least 12 metres.
2. 45 liters of water per watt peak of PV array, from a Total Dynamic Head of 20 metres (Suction head, if applicable, up to a maximum of 7 metres) and with the shut off head being at least 25 metres.
3. 32 liters of water per watt peak of PV array, from a Total Dynamic Head of 30 metres and the shut off head being at least 45 metres.
4. 19 liters of water per watt peak of PV array, from a Total Dynamic Head of 50 metres and the shut off head being at least 70 metres.
5. 13 liters of water per watt peak of PV array, from a Total Dynamic Head of 70 metres and the shut off head being at least 100 metres.
6. 8.5 liters of water per watt peak of PV array, from a Total Dynamic Head of 100 metres and the shut off head being at least 150 metres.

The actual duration of pumping of water on a particular day and the quantity of water pumped could vary depending on the solar intensity, location, season, etc.

Indicative performance specifications for the Shallow and Deep well SPV Water Pumping Systems are given in the Annexure II.

III. PV ARRAY

The SPV water pumping system should be operated with a PV array capacity in the range of 200 Watts peak to 10000 Watts peak, measured under Standard Test Conditions (STC). Sufficient number of modules in series and parallel could be used to obtain the required PV array power output. The power output of individual PV modules used in the PV array, under STC, should be a minimum of 200 Watts peak, with adequate provision for measurement tolerances. Use of PV modules with higher power output is preferred.

Indigenously produced PV module (s) containing mono/ multi crystalline silicon solar cells should be used in the PV array for the SPV Water Pumping systems.

1. Modules supplied with the SPV water pumping systems should have certificate as per IEC 61215 specifications or equivalent National or International/ Standards.
2. Modules must qualify to IEC 61730 Part I and II for safety qualification testing.
3. The efficiency of the PV modules should be minimum 14% and fill factor should be more than 70%.
4. The terminal box on the module should have a provision for “Opening” for replacing the cable, if required.
5. There should be a Name Plate fixed inside the module which will give:
 - a. Name of the Bidder or Distinctive Logo.
 - b. Module manufacture name
 - c. Model Number
 - d. Serial Number
 - e. Year of manufacture
 - f. Project Name and Year (Rajasthan Solar Pumping Project 2017-18)
6. Each PV module must use a RF identification tag (RFID), which must contain the following information:
 - a. Name of the bidder of PV Module
 - b. Module manufacture name
 - c. Model or Type Number
 - d. Serial Number
 - e. Month and year of the manufacture
 - f. I-V curve for the module
 - g. Peak Wattage of the module with volts
 - h. I_m , V_m and FF for the module
 - i. Unique Serial No and Model No of the module
 - j. Project Name and Year (Rajasthan Solar Pumping Project 2017-18)

IV. MOTOR PUMP-SET

The SPV water pumping systems may use any of the following types of motor pump sets:

1. Surface mounted motor pump-set
 2. Submersible motor pump set
 3. Floating motor pump set
 4. Any other type of motor pump set after approval from Test Centres of the Ministry.
- The “**Motor Pump Set**” should have a capacity in the range of 0.2 Hp to 10 Hp and should have the following features:

1. The mono block DC/ AC centrifugal motor pump set with the impeller mounted directly on the motor shaft and with appropriate mechanical seals which ensures zero leakage.
2. The motor of the capacity ranging from 0.2 hp to 10 hp should be AC, PMDC or BLDC type. The suction and delivery head will depend on the site specific condition of the field.
3. Submersible pumps could also be used according to the dynamic head of the site at which the pump is to be used.
4. It is recommended that all parts of the pump and the motor of the submersible pumps should be made of stainless steel. - The bidders of pumps should self certify that, the pump and all external parts of motor used in submersible pump which are in contact with water, are of stainless steel. The pumps used for solar application should have a 5 years warranty so it is essential that the construction of the pump be made using parts which have a much higher durability and do not need replacement or corrode for at least 5 years.
5. The suction/ delivery pipe (GI/HDPE), electric cables, floating assembly, civil work and other fittings required to install the system.
6. The following details should be marked indelibly on the motor pump set
 - a) Name of the Manufacturer or Distinctive Logo.
 - b) Model Number.
 - c) Serial Number.
7. The same make of Solar Panels, pumps, inverter / controller for which the test report is submitted in the bid document should be supplied by the bidder.
8. **Provision for remote monitoring** of the installed pumps must be made in the controllers or the inverters either through an integral arrangement or through an externally fitted arrangement. It should be possible to ascertain the daily water output, the power generated by the PV array, the UP TIME of the pump during the year, Number of days the pump was unused or under breakdown/repairs. All expenditure including SIM charge up to 5 year will have to be borne by supplier.

Detail of RMM is as under –

SPV water pumping systems shall have online Remote Monitoring Mechanism (RMM) and the SPV water pump supplier would make provision for monitoring the performance of SPV water pump till the warranty period.

The channels for remote communication and other communication device/equipment associated with RMM shall be provided by the SPV water pump Supplier.

The RMM should have following features :- Web portal to view on line data such as voltage, current, power, energy generated and pump on/off duration.

Provision for generation of various reports in the printable format.

Data shall be extracted locally and uploaded to the server in the event of loss of communication.

Provision for data export in standard format.

Historical data made available in server for report generation.

The sample log book deployed for output data and performance of the SPV water pump:-

From DD/MM/YY to DD/MM/YY

S.N.	Parameter Name	Unit	Result	Data (DD/MM/YY)
1	Maximum Voltage (Vmax)	Volt		
2	Maximum Current (I Max)	Amp		
3	Power Generated by PV Array (Pmax)	Watt		
4	Total Water output	Ltr		
5	Pump on/off			

Note:- It is expected that the software shall be able to show the results of above listed parameters at a glance/individual as desired for a day/particular period.

Other details

- Display of all firms should be almost uniform for better analysis.
- Beneficiary details should be incorporated for cross verification.
- Segregated information of State as a whole and different districts must be available.
- Figures of total installations, number of working systems, numbers of system switched off by beneficiaries and numbers of systems non operative due to fault should be clearly displayed / indicated on RM portal.
- History of individual pump should be available.
- Segregated information of nonfunctional pumps during last 7 days, 10 days, 15 days, 30 days, 90 days, 180days..... etc. should be available.

v) The following details should be marked indelibly on the pump set

- a. Name of the Manufacturer or Distinctive Logo.
- b. Model Number.
- c. Serial Number.

vi) The suction/delivery pipe (GI/HDPE), electric, cables, floating assembly, civil work and other fitting required to install the Motor Pump set.

The approval of outsourced pump would be short listed on the basis of performance data/ specifications submitted by the firm.

V. MOUNTING STRUCTURES and TRACKING SYSTEM

The PV modules should be mounted on metallic structures of adequate strength and appropriate design, which can withstand load of modules and high wind velocities up to 150 km per hour. The support structure used in the pumping system should be hot dip galvanized iron with minimum 80 micron thickness.

To enhance the performance of SPV water pumping systems, manual or passive or auto tracking system **must** be used. For manual tracking, arrangement for seasonal tilt angle adjustment and three times manual tracking in a day should be provided.

The structure design (along with the civil work) declared by the bidder should technically be full proof/ sufficiently strong against the prevailing wind load. The manufacturing firm will be fully responsible for any damages caused by high wind velocity within guarantee period. Structural design and drawing should be duly approved/ recognised by any Engineering Institute/chartered engineer for this project. The parameters of prevailing wind speed, soil conditions, load and upward lift should be taken care of while preparing the design and the same is required to be mentioned on design.

However, bidder/ supplier shall ensure that mounting structure is efficient, strong enough to sustain load and is capable against high wind velocity.

VI. ELECTRONICS AND PROTECTIONS

1. Maximum Power Point Tracker (MPPT) should be included to optimally use the Solar panel and maximize the water discharge.
2. Inverter could be used, if required, to operate an A.C. Pump.

3. The inverter must have IP 54 protection or must be housed in a cabinet having at least IP54 protection.
4. Controller for BLDC motor driven pumps, if required be used. The controller must have IP 54 protection or must be housed in a cabinet having at least IP 54 protection.
5. Adequate protections should be incorporated against dry operation of motor pump set, lightning, hails and storms. Full protection against open circuit, accidental short circuit and reverse polarity should be provided.

VII. OTHER ASSESSORIES

The suction/ delivery pipe (BIS, ISI: GI/HDPE), electric cables (specification should be declared as per requirement of model), floating assembly (HDPE in case of surface/ open water bodies), civil work (As per civil design against wind load protection) and other fittings required to install the system. The supplier / empanelled firm is required to provide the maintenance manual to the beneficiaries. One Home lighting system and fencing will be the integral part of system in the same assistance level. The firm will declare overall efficiency of the system.

Supplier will have to provide fencing mandatory of the solar system to ensure the security and safety with following specification :- (Angle iron (with red oxide and Black paint coating) 35x35x5mm

Distance between two polls 2.5 mtr. with corner angle iron support.

Fencing height – 5 ft.

Gate size – 3x5 ft. (with lock provision)

Foundation of cement & concrete (1x1x1.5ft)

Set back (from module last point) (1 mtr. North, 2 mtr. South, 2 mtr. East – West))

Thickness (2mm) Mesh wire or 16 gauge thickness barbed wire.

ON/OFF SWITCH

A good reliable switch suitable for DC / AC use is to be provided with the motor pump set. Sufficient length of cable should be provided for inter-connection between the PV array, Controller / Inverter and the motor pump set.

VIII. PERFORMANCE SPECIFICATIONS AND WARRANTY

Solar PV Water Pumps with PV module capacity in the range of 200 Watt to 5 KWp may be installed on a suitable bore-well / open well / Water Reservoir / Water stream etc. Indicative Performance Specifications for the Shallow and Deep well SPV Water Pumping Systems are given in the Annexure I & II.

The PV Modules must be warranted for output wattage, which should not be less than 90% at the end of 10 years and 80% at the end of 25 years. The whole system including submersible/ surface pumps shall be warranted for 5 years. Required Spares for trouble free operation during the Warrantee period should be provided along with the system. **Also refer para IV.3.2.4.**

IX. NOTES

1. Wherever the “Water table” or the level of water in the reservoir or the water source (e.g. Diggee) from which the water is to be pumped, is within 10 metres depth, ‘Surface Motor Pump sets’ should be preferred.
2. The type of pump set used must match the total dynamic head requirement of the site (i.e. the location at which it is installed). Moreover, it should be appropriately tested and certified by the authorized test centres of the Ministry to meet the performance and water discharge norms specified in section II above.
3. The beneficiary may select an appropriate Model (i. e. Capacity of PV Array and Type of Motor Pump Set) as per site requirement.

Water Output*	243,000 litres per day from a total head of 10 metres	121,500 litres per day from a total head of 20 metres	432,000 litres per day from a total head of 10 metres	216,000 litres per day from a total head of 20 metres	96,000 litres per day from a total head of 30 metres	57,000 litres per day from a total head of 50 metres	39,000 litres per day from a total head of 70 metres	91,200 litres per day from a total head of 50 metres	62,400 litres per day from a total head of 70 metres	40,800 litres per day from a total head of 100 metres	128,250 litres per day from a total head of 50 metres	87,750 litres per day from a total head of 70 metres	57,375 litres per day from a total head of 100 metres	171,000 litres per day from a total head of 50 metres	117,000 litres per day from a total head of 70 metres	76,500 litres per day from a total head of 100 metres

*. Water output figures are on a clear sunny day with three times tracking of SPV panel under the “Average Daily Solar Radiation” condition of 7.15 KWh/ sq.m on the surface of PV array (i.e. Coplanar with the PV Modules),

Notes:

1. Suction head, if applicable, minimum 7 metres for shallow well (surface) solar pump system.
2. For higher or lower head / PV capacity, or in between various models; water output could be decided as per the clause II. (i.e. performance specifications and requirements) specified earlier.
3. If submersible pumps are used in lieu of surface pumps, the water output must match that of the surface pumps as specified in this table.
4. Module mounting structure shall be MS hot dipped galvanised, with a facility of manual tracking at least three times a day.

Annexure III

Minimal Technical Requirements/Standards for off-grid/Stand-Alone solar photovoltaic (PV) power plants/systems to be deployed under the National Solar Mission (as per MNRE ordered dated 16.06.10)

Item/component	Applicable IEC/equivalent BIS Standard	
	Standard Description	Standard Number
PV Modules: Crystalline Silicon Terrestrial PV Modules	Must conform to the latest edition of IEC/equivalent BIS Standards for module design qualification and type approval.	IEC 61215 IEC 61730 Part 1 & 2 IEC 61415/IS14286
Power Conditioners/Inverters*	Efficiency Measurements Environmental Testing	IEC 61683, IEC 60068 2 (6,21,27,30,75,78)
Charge controller/MPPT Units*	Design Qualification Environmental Testing	IEC 61093, IEC 60068 2(6,21,27,30,75,78)
Storage Batteries	General Requirements & Methods of Test Tubular Lead Acid	IEC 61427 IS 1651/IS 133369
Cables	General Test and Measuring Methods PVC insulated cables for working Voltages up to and including 1100 V-Do, UV resistant for outdoor installation	IEC 60189 IS 694/ IS 1554 IS/IEC 69947
Switches/ Circuit Breakers/Connectors	General Requirements Connectors-safety	IS/IEC 60947 part I,II,III
Junction Boxes/Enclosure	General Requirements	IP 65 (for outdoor)/IP 21 (for indoor) IEC 62208
SPV System Design	PV Stand-alone System design verification	IEC 62124
Installation Practices	Electrical installation of buildings Requirements for SPV power supply systems.	IEC 60364-7-712

*Must additionally conform to the relevant national/international Electrical Safety Standards.

** Also refer Addendum No. 32/49/2010-11-PVSE dated 19.08.2010

Testing and standards should be as per Jawaharlal Lal Nehru National Solar Mission. The supplier is supposed to produce IV curve for every panel at the time of billing/ supply for pre-dispatch/ after supply random testing.

The bidder is supposed to declare details of Solar Pump Models and Configuration as per the Technical Performa No. 13.

a. Time of Supply:

Within 45 days after issuance of work order

b. Quantum of work:

Presently the quantity of SPV Solar pumps - 7500 nos., this quantity may further be increased on receipt of further sanctions from MNRE, GoI/GoR as per provisions of RTPP Act & Rule.

c. Locations:

At the selected farmers' field of all 33 districts of the state.

IV.3.2 Commissioning of solar infrastructural facility and its maintenance services for 10 years

1. Time of Commissioning:

Within 20 days after supply.

2. Quantum of work and location:

As specified in Package.

3. Technical backup to the beneficiaries:

The supplier firm is supposed to provide the operational and maintenance manual of the system in Hindi with farmers friendly language. A block wise/ district wise training of the beneficiaries regarding all the aspects of the system is required to be conducted by the supplying firm.

4. Guarantee, maintenance and after sales services :

1. It includes 5 years guarantee period and after sale services up to 10 years including guarantee period. The maintenance after guarantee period will be at the cost of beneficiaries. The firm is also required to establish the customer care centre, toll free number, farmer training on service centre and upload the data on departmental website.
2. The successful bidder/ empanelled firm shall assist the unit holder to file insurance claim and shall be responsible to bring an insurance claim to a final settlement. The successful bidder/ empanelled firm will be given system insurance for five years.
3. Maintenance arrangements: If the supplier company has commissioned one hundred or more units in a district during the last five financial years, including the present financial year, then it shall establish a customer care centre at that district headquarter staffed with at least one technical person whose name, mobile number and address shall be supplied to the concerned officers of Horticulture Department the farmer and also placed on the website.
4. The supplier company shall maintain the database as per Beneficiary Information table which may be revised from time to time and update it by every first day of the coming month. This information will be subsequently integrated on the website of the Horticulture Department for which full assistance will be provided by the supplier company. It shall enter data for a new unit within 10 days of installation. The supplier company shall arrange inspection of the solar pump unit once in each quarter April-June, July-Sept, Oct-Dec and Jan-March up to the last quarter in which maintenance expires and report to the district unit of Horticulture Department. In addition to the above the supplier company will submit a maintenance plan.
5. The supplier company is expected to appreciate and understand the maintenance clauses with seriousness with the objective that the unit runs hassle-free and the

farmer is not made to run from pillar to post for rectification in case of development fault (s) in the unit.

6. Complaints about fault (s) received by dak, telephone, fax, email or whatever communication method shall be attended within three working days by site visit etc.
7. The company is expected to stock adequate spare parts so that unit becomes operational within 5 days of complaint.
8. In case the company fails to maintain a unit, the bank guarantee shall be revoked and the decision of the Member Secretary/ Mission Director shall be final. Failure to maintain five or more units in a year will also cause black listing of the company for future supplies and the decision of the Member Secretary/ Mission Director shall be final.

(VI) General Conditions of Contract

VI.1. Definitions

Acceptance is the date when the Contract came into existence upon receipt by the Contractor of the **Letter of Acceptance** issued by the RHDS.

The **Contract** is the contract between the RHDS and the Contractor.

The **Contractor** is a person or Bidder or a company/ firm, Government owned entity or any combination of them whose bid to carry out the Works has been accepted by the RHDS.

The **Contractor's Bid** is the completed bidding document submitted by the Contractor to the RHDS.

The **Contract Price** is the price stated in the Letter of Acceptance and thereafter as adjusted in accordance with the provisions of the Contract.

Days are calendar days; **Weeks** are calendar weeks; **Months** are calendar months.

The **Intended Completion Date** is the date on which it is intended that the Contractor shall complete the supply and commissioning solar pumping system. The Intended Completion Date is specified in the EOI. The Intended Completion Date may be revised only by the RHDS by issuing an extension of time.

The **Notice to Proceed** is the notice issued by the RHDS to the Contractor to proceed with the works.

The term **RHDS**, normally refers to the Member Secretary/ Mission Director, RHDS and any Committee or body formed by him for the purpose of the works under this Contract.

VI.2. Payment Terms:

1. The prices should be quoted inclusive of component/ material wise and number wise cost, construction/ installation / maintenance charges, all handling, packaging, transportation and insurance charges to the point of execution.
2. The time successful for delivery and completion of work in the contract tender shall be deemed to be the essence of the contract and the successful bidder(s) shall arrange supplies & complete work within the period on receipt of order from the department/ RHDS.
3. Should the successful bidder(s) fail to complete the work in the period specified in the authorisation letter/ contract, the RHDS / department may at its discretion allow an extension in time of completion, subject to recovery from the bidder an agreed liquidated damages and not by way of penalty, a sum equal to the following percentage of the value of the systems which bidder has failed to supply/ Commissioning for period of delay as stated below : -
 - i. Delay up to one fourth period of the prescribed delivery/ commissioning period - 2.5%.
 - ii. Delay exceeding one fourth but not exceeding half of the prescribed delivery/ commissioning period - 5%.
 - iii. Delay exceeding half but not exceeding three fourth of the prescribed delivery/ commissioning period - 7.5%.
 - iv. Delay exceeding three fourth but not exceeds the period equal to the prescribed delivery/ commissioning period - 10%.

- 1- Fraction of a day in reckoning the period of delay in supply shall be eliminated if it is less than half a day.
 - 2- The maximum amount of agreed liquidated damages shall be 10%.
 - 3- If the supplier requires an extension of time in completion of contractual supply on account of occurrence for the same immediately on occurrence of the hindrance but not after the stipulated date of completion of supply.
 - 4- Delivery period may be extended with or without liquidated damages if the delay in supply of goods is on account of hindrances beyond the control of the bidder.
 - 5- Penalty on delayed commissioning will be deducted on final payment.
4. No Price escalation on account of any statutory increase in or fresh imposition of customs duty, excise duty, sales tax or duty leviable in respect of the systems authorised to be installed shall be application. But the benefit on account of decrease in these shall be available by the RHDS / department if accrued during the stipulated/ extended delivery period.

VI.3. TERMINATION:

3.1 The RHDS or the Contractor may terminate the Contract if the other party causes a breach of the Contract.

3.2 Breaches of Contract include, but are not limited to:

- (a) The Contractor stops work when no stoppage of work is shown on the current program and the stoppage has not been authorized by the RHDS;
- (b) The RHDS instructs the Contractor/ firm to suspend the execution of work and the instruction is not withdrawn within 30 days;
- (c) The RHDS or the Contractor is made bankrupt or goes into liquidation other than for a reconstruction or amalgamation;
- (d) The RHDS gives Notice that failure to correct a particular Defect is a breach of Contract and the Contractor fails to correct such Defect within a reasonable period of time determined by the RHDS;
- (e) The Contractor has delayed the supply and Commissioning of solar pumping system.
- (f) If the Contractor, in the judgment of the Employer has engaged in corrupt or fraudulent practices in competing or in executing the Contract.

3.3 Notwithstanding the above, the RHDS may terminate the Contract at his convenience.

3.4 If the Contract is terminated the Contractor shall stop execution of works forthwith.

VI.4. PAYMENT UPON TERMINATION

4.1 If the Contract is terminated because of a breach of Contract by the Contractor, the RHDS shall issue a certificate for the value of the work done plus any amount paid against materials/works ordered for Works less payments received up to the date of issue of the certificate and less the percentage of the value of the Works not completed. Liquidated Damages do not apply and the Employer has the right to damages in respect of any delay incurred arising from the breach. If the total amount due to the RHDS exceeds any payment due to the Contractor, the difference shall be a debt payable to the RHDS.

4.2 If the Contract is terminated at the RHDS's convenience or because of a breach of Contract by the RHDS, the RHDS shall issue a certificate for the value of the work done and the Contractor's costs of protecting and securing the Works and less advance payments received up to the date of the certificate.

VI.5. DISPUTES

- 5.1 **RHDS Decision:** If any dispute of any kind whatsoever arises between the RHDS and the bidder in connection with, or arising out of, the Contract or the execution of the Works, whether during the execution of Works or after their completion, and before or after repudiation or other termination of the Contract, including any dispute as to:
- a) The quality of the workmanship or materials,
 - b) Any other question, claim, right matter or anything whatsoever in any way arising out of or relating to the supply and commissioning of solar system

The dispute shall, in the first place, be referred in writing to the Member Secretary/ Mission Director of RHDS who has jurisdiction over the Works specified in the Contract, with a copy to the other party. Such reference shall state that it is made pursuant to this Clause. Not later than 30 days after the day on which he received such reference the Member Secretary/ Mission Director of RHDS shall give written notice of his decision to the RHDS and the Contractor. Such decision shall state that it is made pursuant to this Clause. Subject to the other forms of settlement hereinafter provided, the decision of Member Secretary of RHDS in respect of every dispute or difference so referred shall be final and binding upon the Contractor and the RHDS. Unless the Contract has already been repudiated or terminated, the Contractor shall, in every case, continue to proceed with the Works with all due diligence and the Contractor and the RHDS shall give effect forthwith to every such decision of the RHDS until or unless the same shall be revised in an amicable settlement or as hereinafter provided.

- 5.2 **Remedy when the decision of Member Secretary/ Mission Director of RHDS is Not Accepted:** If either the RHDS or the Contractor be dissatisfied with any decision of the Member Secretary of RHDS, or if the Member Secretary of RHDS fails to give notice of his decision on or before 30 days after the day on which he received the reference, then either the RHDS or the Contractor may, on or before the 30 day after the day on which he received the notice of such decision, or on or before the twenty eighth day after the day on which the said period of 30th days expired, as the case may be, give notice to the other party, with a copy to the Member Secretary of RHDS, of his intention to commence proceedings before Secretary Horticulture in appeal. The Secretary, Horticulture shall decide the matter in appeal acting on behalf of the EC of RHDS.

If the Member Secretary of RHDS has given notice of his decision as to a matter in dispute to the RHDS and the Contractor and no written notice to commence arbitration has been given by either the RHDS or the Contractor on or before the 30th day after the day on which the parties received notice as to such decision from the Member Secretary of RHDS, the said decision shall become final and binding upon the RHDS and the Contractor. In case, a party remains dissatisfied with the decision of the Secretary Horticulture, it can refer the matter for Arbitration.

- 5.3 **Amicable Settlement:** Where notice of intention to commence arbitration has been given in accordance with Sub-Clause 5.2, arbitration shall not be commenced unless an attempt has first been made by the parties to settle the dispute amicably. Provided that, unless the parties otherwise agree, arbitration may be commenced on or after the fifty-sixth day after the day on which the notice of intention to commence arbitration was given, whether or not any attempt at amicable settlement thereof has been made.

- 5.4 **Arbitration:** Any dispute in respect of which:

- a) The decision, if any, of the Member Secretary of RHDS has not become final and binding pursuant to sub-clause 5.1, or in case either party remains dissatisfied with the decision of the Secretary Horticulture as in 5.2; or
- b) An amicable settlement has not been reached within the period stated in Sub-Clause 5.3, it shall be finally resolved by arbitration. The arbitration will take place in accordance with the Arbitration and Reconciliation Act, 1996 as applicable in India and the arbitration shall

take place at Jaipur. Each party shall appoint an Arbitrator and the two Arbitrators shall appoint an Umpire. Arbitration may be commenced prior to or after completion of the Works, provided that the obligations of the RHDS, the RHDS and the Contractor shall not be altered by reason of the arbitration being conducted during the progress of the Works. The decision of the Arbitral Tribunal shall be final and binding on both the parties.

- VI.6. Force Majeure:** This clause may be allowed to be invoked by either party in case of extraordinary circumstances beyond the control of either party by the Executive Committee of the RHDS for termination or mitigation of liability. The decision of the Executive Committee of RHDS shall be final in this respect. The decision shall be arbitrable in terms of clause 5.4.
- VI.7. Disclaimer Clause:** RHDS reserves the absolute and unqualified right to change, modify, add, alter or delete any clause of the Contract till it is signed and shall not bear any responsibility towards any damage caused to the Contractor on this account. RHDS also shall not be responsible for any loss suffered by the contractor on account of any unforeseen happening and shall not compensate the Contractor for the same
- VI.8. Superintendence Clause:** The Executive Committee of RHDS is the final authority to decide any matter, either on reference or suo moto, which is otherwise being performed under its delegated authority by its officials under the terms prescribed in this Bid Document.

(VII) Technical Bidding forms

1. TECHNICAL PROPOSAL SUBMISSION SHEET

Name of package:

1. Supply of Solar panel, Solar Photovoltaic (SPV) Pump and GI support structure.
2. Commissioning of solar infrastructural facility and its maintenance services and after sales services for 10 years including 5 years' guarantee period.

To

Member Secretary/ Mission Director;
Rajasthan Horticulture Development Society,
Directorate of Horticulture,
Pant Krishi Bhawan, Jaipur (Rajasthan), India

Sir,

- 1 Having examined the Conditions of Contract, terms & conditions for the execution of the above named Works we, the undersigned, offer to execute and complete such works.
- 2 We undertake, if our bid is accepted, to commence the works as soon as is reasonably possible after receipt of the Member Secretary / Mission Director Notice to Proceed, but in no event later than seven (7) working days thereafter, and to complete the whole of the Works comprised in the Contract within the time stated in the Bid.
- 3 We agree to treat the bid document and other records connected with the Works as secret and confidential documents and shall not communicate information described therein to any person other than the person authorized by you or use the information in any manner prejudicial to the safety of the Works.
- 4 We understand that you are not bound to accept the lowest or any proposal you may receive.
- 5 We are participating, as Bidders, in not more than one Bid in this Bidding process.
- 6 We enclose herewith an affidavit in the required format.

Yours faithfully;

Name of the applicant/ Bidder / Private/Public limited Company
Position held by the signatory

Encl: as above

Address:

2. AFFIDAVIT

(Enclosure to Technical Proposal Submission Sheet)

- 1 I, the undersigned, do hereby certify that all the statements made in the required attachments are true and correct.
- 2 The undersigned also hereby certifies that neither our firm M/s _____ has abandoned any work awarded to us by any department of Government of India or by any State Government nor any contract awarded to us for such works has been rescinded, during the last five years prior to the date of this bid.
- 3 The undersigned hereby authorize(s) and request(s) any bank, person, firm or corporation to furnish pertinent information deemed necessary and requested by RHDS to verify this statement or regarding my (our) competence and general reputation.
- 4 The undersigned understands and agrees that further qualifying information may be requested, and agrees to furnish any such information at the request of RHDS.

Signed by an Authorized signatory of the firm

Title of the signatory

Head v/s discharge details of every model of pump should be provided with this document. Water output figures are on a clear sunny day with three times tracking of SPV panel when solar radiation on horizontal surface is: 7.15 KWH/sq.m.

Department will conduct Pre-despatch Inspection of material & inspect the post installation efficiencies of system. Display of voltage, ampere & wattage on the controller will be preferred.

The information on Radiation v/s wattage of SPV Array, wattage v/s RPM of each pump models, RMP v/s discharge per minute on different dynamic head (10 metre to 75 metre) and discharge of water in litre per hour on different dynamic head at peak condition radiation available 7.15 KWH per sq. mtr. per day shall also be furnished as and when required.

14. Compliance with the Code of Integrity and No Conflict of Interest

Annexure-A

Any person participating in a procurement process shall –

- a) not offer any bribe, reward or gift or any material benefit either directly or indirectly in exchange for an unfair advantage in procurement process or to otherwise influence the procurement process;
- b) not misrepresent or omit that misleads or attempts to mislead so as to obtain a financial or other benefit or avoid an obligation;
- c) not indulge in any collusion, Bid rigging or anti-competitive behaviour to impair the transparency, fairness and progress of the procurement process;
- d) not misuse any information shared between the procuring Entity and the Bidders with an intent to gain unfair advantage in the procurement process;
- e) not indulge in any coercion including impairing or harming or threatening to do the same, directly or indirectly, to any party or to its property to influence the procurement process;
- f) not obstruct any investigation or audit of a procurement process;
- g) disclose conflict of interest, if any; and
- h) disclose any previous transgressions with any Entity in India or any other country during the last three years or any debarment by any other procuring entity.

Conflict of Interest:-

The Bidder participating in a bidding process must not have a Conflict of Interest.

A Conflict of Interest is considered to be a situation in which a party has interests that could improperly influence that party's performance of official duties or responsibilities, contractual obligations, or compliance with applicable laws and regulations.

- i. A Bidder may be considered to be in Conflict of Interest with one or more parties in a bidding process if, including but not limited to:
 - a. have controlling partners/ shareholders in common; or
 - b. receive or have received any direct or indirect subsidy from any of them; or
 - c. have the same legal representative for purposes of the Bid; or
 - d. have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the Bid of another Bidder, or influence the decisions of the Procuring Entity regarding the bidding process; or
 - e. the bidder participates in more than one Bid in a bidding process. Participation by a Bidder in more than one Bid will result in the disqualification of all Bids in which the Bidder is involved. However, this does not limit the inclusion of the same subcontractor, not otherwise participating as a Bidder, in more than one Bid; or
 - f. the Bidder or any of its affiliates participated as a consultant in the preparation of the design or technical specifications of the Goods, Works or Services that are the subject of the Bid; or
 - g. Bidder or any of its affiliates has been hired (or is proposed to be hired) by the Procuring Entity as engineer-in-charge/ consultant for the contract.

15. Declaration by the Bidder regarding Qualifications

Annexure-B

Declaration by the Bidder

In relation to my/our Bid submitted to for procurement of..... in response to their Notice Inviting Bids No Dated I/we hereby declare under Section 7 of Rajasthan Transparency in Public Procurement Act, 2012, that:

1. I/we possess the necessary professional, technical, financial and managerial resources and competence required by the Bidding Document issued by the Procuring Entity;
2. I/we have fulfilled my/our obligation to pay such of the taxes payable to the Union and the State Government or any local authority as specified in the Bidding Document;
3. I/we are not insolvent, in receivership, bankrupt or being wound up, not have my/our affairs administered by a court or a judicial officer, not have my/our business activities suspended and not the subject of legal proceedings for any of the foregoing reasons;
4. I/we do not have, and our directors and officers not have, been convicted of any criminal offence related to my/our professional conduct or the making of false statements or misrepresentations as to my/our qualifications to enter into a procurement contract within a period of three years preceding the commencement of this procurement process, or not have been otherwise disqualified pursuant 10 debarment proceedings;
5. I/we do not have a conflict of interest as specified in the Act, Rules and the Bidding Document, which materially affects fair competition;

16. Grievance Redressal during Procurement Process

Annexure-C

The designation and address of the First Appellate Authority is

The designation and address of the Second Appellate Authority is

(1) Filing an appeal

If any Bidder or prospective bidder is aggrieved that any decision, action or omission of the Procuring Entity is in contravention to the provisions of the Act or the Rules or the Guidelines issued the render, he may file an appeal to First Appellate Authority, as specified in the Bidding Document within a period of ten days from the date of such decision or action, omission, as the case may be, clearly giving the specific ground or grounds on which he feels aggrieved:

Provided that after the declaration of a Bidder as successful the appeal may be filed only by a Bidder who has participated in procurement proceedings:

Provided further that in case a Procuring Entity evaluates the Technical Bids before the opening of the Financial Bids, an appeal related to the matter of Financial Bids may be filed only by a Bidder whose Technical Bid is found to be acceptable.

- (2) The officer to whom an appeal is filed under para (1) shall deal with the appeal as expeditiously as possible and shall endeavour to dispose it of within thirty days from the date of the appeal.
- (3) If the officer designated under para (1) fails to dispose of the appeal filed within the period specified in para (2), or if the Bidder or prospective bidder or the Procuring Entity is aggrieved by the order passed by the First Appellate Authority, the Bidder or prospective bidder or the Procuring Entity, as the case may be, may file a second appeal to Second Appellate Authority specified in the Bidding Document in this behalf within fifteen days from the expiry of the period specified in para (2) or of the date of receipt of the order passed by the First Appellate Authority, as the case may be.

(4) Appeal not to lie in certain cases

No appeal shall lie against any decision of the Procuring Entity relating to the following matters, namely:-

- (a) determination of need of procurement;
- (b) provisions limiting participation of Bidders in the Bid process;
- (c) the decision of whether or not to enter into negotiations;
- (d) cancellation of a procurement process;
- (e) applicability of the provisions of confidentiality.

(5) Form of Appeal

- (a) An appeal under para (1) or (3) above shall be in the annexed Form along with as many copies as there are respondents in the appeal.
- (b) Every appeal shall be accompanied by an order appealed against, if any, affidavit verifying the facts stated in the appeal and proof of payment of fee.
- (c) Every appeal may be presented to First Appellate Authority or Second Appellate Authority, as the case may be, in person or through registered post or authorized representative.

(6) Fee for filing appeal

- (a) Fee for first appeal shall be rupees two thousand five hundred and for second 'appeal shall be rupees ten thousand, which shall be non-refundable.
- (b) The fee shall be paid in the form of bank demand draft or banker's cheque of a Scheduled Bank in India payable in the name of Appellate Authority concerned.

(7) Procedure for disposal of appeal

- a) The First Appellate Authority or Second Appellate Authority, as the case may be, upon filing of appeal, shall issue notice accompanied by copy of appeal, affidavit and documents, if any, to the respondents and fix date of hearing.
- b) On the date fixed for hearing, the First Appellate Authority or Second Appellate Authority, as the case may be, shall,-
 - (i) hear all the parties to appeal present before him; and
 - (ii) peruse or inspect documents, relevant records or copies thereof relating to the matter.
- c) After hearing the parties, perusal or inspection of documents and relevant records or copies thereof relating to the matter, the Appellate Authority concerned shall pass an order in writing and provide the copy of order to the parties to appeal free of cost.
- d) The order passed under sub-clause(c) above shall also be placed on the State Public Procurement Portal.

17. Additional Conditions of Contract

Annexure-D

1. Correction of arithmetical errors

Provided that a Financial Bid is substantially responsive, the Procuring Entity will correct arithmetical errors during evaluation of Financial Bids on the following basis:

- i. if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- ii. if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- iii. if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (i) and (ii) above.

If the Bidder that submitted the lowest evaluated Bid does not accept the correction of errors, its Bid shall be disqualified and its Bid Security shall be forfeited or its Bid Securing Declaration shall be executed.

2. Procuring Entity's Right to Vary Quantities

- i. At the time of award of contract, the quantity of Goods, works or services originally specified in the Bidding Document may be increased or decreased by a specified percentage, but such increase or decrease shall not exceed twenty percent, of the quantity specified in the Bidding Document. It shall be without any change in the unit prices or other terms and conditions of the Bid and the conditions of contract.
- ii. If the Procuring Entity does not procure any subject matter of procurement or procures less than the quantity specified in the Bidding Document due to change in circumstances, the Bidder shall not be entitled for any claim or compensation except otherwise provided in the Conditions of Contract.
- iii. In case of procurement of Goods or services, additional quantity may be procured by placing a repeat order on the rates and conditions of the original order. However, the additional quantity shall not be more than 25% of the value of Goods of the original contract and shall be within one month from the date of expiry of last supply. If the Supplier fails to do so, the Procuring Entity shall be free to arrange for the balance supply by limited Bidding or otherwise and the extra cost incurred shall be recovered from the Supplier.

3. Dividing quantities among more than one Bidder at the time of award (In case of procurement of Goods)

As a general rule all the quantities of the subject matter of procurement shall be procured from the Bidder, whose Bid is accepted. However, when it is considered that the quantity of the subject matter of procurement to be procured is very large and it may not be in the capacity of the Bidder, whose Bid is accepted, to deliver the entire quantity or when it is considered that the subject matter of procurement to be procured is of critical and vital nature, in such cases, the quantity may be divided between the Bidder, whose Bid is accepted and the second lowest Bidder or even more Bidders in that order, in a fair, transparent and equitable manner at the rates of the Bidder, whose Bid is accepted.

(VIII) Financial Bid

e-Tendering System Government of Rajasthan

Tender Inviting Authority : Rajasthan Horticulture Development Society Directorate of Horticulture,
Jaipur, Rajasthan.

Name of Work : Solar Water Pumping program 2017-18 & 2018-19 of MNRE for hi-tech
Horticulture /Agriculture purposes in the state of Rajasthan.

Contract No. DH/Solar/EOI/2017-18/6266 date 02.02.18

SCHEDULE OF WORK / ITEM (S)

Sl. No	Description of Work / Item (S)	Item Code	Quantity	Units	Total price inclusive of all taxes (Rs.)	Total amount (Rs.)
1	SPV DC Surface Pumping System	3 HP/ 20 m head (minimum)/ Static mounting structure	1	Nos

15	Single axis auto tracker system	Additional cost over Static mounting structure	1	Nos		
16	SPV Domestic lighting system	37 Wp/ 40 Ah Battery/ 9Wx2 fixture	1	Nos		
17	3 HP Solar pump system fencing around Solar Panels and Structure	Fencing as per technical specification*	1	Nos		
18	5 HP Solar pump system fencing around Solar Panels and Structure	Fencing as per technical specification*	1	Nos		
19	7.5 HP Solar pump system fencing around Solar Panels and Structure	Fencing as per technical specification*	1	Nos		
20	10 HP Solar pump system fencing around Solar Panels and Structure	Fencing as per technical specification*	1	Nos		

The Financial Bid shall be finalized on Turn-key basis by calculating the total amount quoted for the different materials and execution. A company shall be considered only if it quotes for all the materials and execution.

(IX) AGREEMENT (Indicative)

This Agreement made thisday of 2018 between Rajasthan Horticulture Development Society, Jaipur (hereinafter called the Employer) of the one part and of (hereinafter called the Contractor) of the other part.

Whereas the Employer is desirous that certain works should be executed by the Contractor, viz supply and Commissioning of Solar Pump Sets and has accepted a Bid by the Contractor for the execution and completion of such Works and the remedying of any defects therein.

Now this Agreement witnesseth as follows:

- 1 In this Agreement words and expressions shall have the same meaning as are respectively assigned to them in the Conditions of Contract hereinafter referred to.
2. The following documents shall be deemed to form and be read and construed as part of this Agreement, viz.:
 - (a) The Letter of Acceptance;
 - (b) The said Bid;
 - (c) The General Conditions of Contract;
 - (d) The Scope of Work;
 - (e) The Priced Bill of Quantities;
 - (f) The Schedules of Supplementary Information.
 - (g) The operational guideline of SPV pump;
3. In consideration of the payments to be made by the Employer to the Contractor as hereinafter mentioned, the Contractor hereby covenants with the Employer to execute and complete the Works and remedy any defects therein in conformity in all respects with the provisions of the Contract.
4. The Employer hereby covenants to pay the Contractor in consideration of supply and commissioning of Solar Pumping system unit and the remedying of defects therein the Contract Price or such other sum as may become payable under the provisions of the Contract at the times and in the manner prescribed by the Contract.

In Witness whereof the parties hereto have caused this Agreement to be executed the day and year first before written.
