

### **Minutes of Meeting**

Presentations on technical detailed project reports were done on 26<sup>th</sup> and 27<sup>th</sup> June, 2019 at PMU, RACP. GT team members with experts from industry explained the models of technological DPRs and presented successful business parameters to RACP. Following five DPRs were presented on the day

1. Tomato processing unit
2. Ghani Oil Processing
3. Cumin Soda
4. Cumin Powder
5. Maize Flakes

Following suggestions were proposed in the presentation -

1. GT may organize field visits to the successful models developed in the country on the technological DPRs. A tentative plan mentioning suggestive locations for visits may be submitted to RACP.
2. The innovative model of ripening chamber has a potential in the current scenario considering health aspects in the consumption of fruits and vegetables. GT may explore on the concept and suggest further to RACP.
3. A list of clusters/ FPCs who will have the better opportunity to explore the technological DPRs developed by RACP may be submitted.
4. Tomato processing unit-
  - The production data of Rajasthan at state level and cluster level may be verified. Recent production data of last 3 years may be included.
  - Assumptions in the project may be clearly spell out and selling price of the final products may be re-evaluated and revised.
5. Ghani Oil Processing-
  - Procurement price of Mustard & Groundnut may be verified for the whole year as the prices vary during offseason. The cost of the project may be revised according to the change in the procurement price.
  - Selling price of the Ghani oil may be rechecked.
6. Cumin Soda-
  - The figures of production and productivity of Cumin for each cluster may be verified. Last three years production figures may be included in the report.
7. Cumin Powder-
  - The figures of production and productivity of Cumin for each cluster may be verified. Last three years production figures may be included in the report.
  - Export related data on cumin powder may be included.
8. Maize Flakes -
  - Procurement price of Maize may be verified for the whole year as the prices vary in the year. The cost of the project may be revised according to the changes in the procurement prices.
  - Selling price of maize flakes may be reworked based on the prices at different locations in the country.

GT is suggested to rework on the business plans as per the suggestion provided for each presentation in addition to the common suggestion in the points 1 to 3. The final submission in the hard copies of the reports may be done at the earliest.
